MANITOU AND JLG ARE THE NEW MEMBERS OF SMOPYC 2011 ORGANIZING COMMITTEE

THE NEXT EDITION OF THE SHOW THAT WILL TAKE PLACE
FROM 5TH TO 9TH APRIL IS SUPPORTED BY A WIDE RANGE
OF COLLABORATORS

Zaragoza, 9th June 2010.- The organizers of SMOPYC have a good reason to celebrate: two new, leading companies have recently joined the Organizing Committee of this show, which is an event that counts on the participation and presence of leading international firms. And of this will help to make the next edition of the International Show of Public Works, Construction and Mining Machinery the can't-miss event for the worldwide sector in 2011.

Manitou and JLG are the two new members of this work group whose purpose is to ensure that SMOPYC continues to occupy a leading position in the international show ranking.

The event, scheduled from 5th to 9th April 2011 is already backed by a prestigious group of collaborators headed by the Chairman of the Organizing Committee: Francisco Carrillo of Barloworld Finanzauto (Caterpillar).

At the present time Manitou is the leading manufacturer of all-terrain handling equipment. Originally a French company it set up in business in 1958 and has been present in the Spanish market since 1988. Over these years, in Spain alone it has supplied more than 15,000 machines related to the construction and public works sector, industrial in general or agriculture.

For its part, JLG Industries is the leading producer for aerial work platforms, with several patented brands. Its sales are directed

fundamentally towards rental companies and product distributors. Founded at the beginning of the seventies, the company has factories in United States, France and Belgium.
