

PREVENTIVE MEASURES GUIDE **COVID-19**

Preventive measures to guarantee the safety and health of exhibitors and visitors during the staging of upcoming events.

EVENTS PROTOCOL

SAFE ENVIRONMENT

1 ACCESSES

✓ 1. Accreditation required for access to the premises:

- a. To have received the complete COVID 19 vaccination course, at least 14 days having elapsed since the last dose of it.
- b. To have recovered from SARS CoV 2 infection, diagnosed and be in the period between day 11 and 180, both inclusive, after a positive diagnostic test.
- c. To have a negative active infection diagnostic test performed by health professionals in authorized centers or establishments (in the last 72 hours in the case of PCR or 48 hours in the case of rapid antigen tests).
- d. This accreditation will not be required for children under 12 years of age.

✓ Control measures will be implemented to ensure 1.5 metre social distancing, with specific queues for entry/exit and signage.

✓ As far as possible all accesses and exhibitor and visitor services will be digitalised and entry to each exhibition area will be controlled.

✓ Use of face masks will be mandatory during attendance of events.

✓ Protective screens will be in place at helpdesks or staff will be equipped with appropriate protective gear.

2. EXHIBITION AREAS

WHEN VISITING THE EXHIBITION

- ✓ We recommend specific customer helpdesks fitted with screens, signs, hand sanitizer dispensers, etc.
- ✓ Digitalisation of information on stands, at meetings etc. will be encouraged.
- ✓ Aisles will be designed to reduce the density of visitors and ensure social distancing.
- ✓ The layout of furniture on the stand and in communal areas will guarantee social distancing.
- ✓ Communal areas, meeting zones, restaurant areas etc. will be efficiently distributed.

CAPACITY

- ✓ Signs will indicate the maximum capacity allowed in each space.
- ✓ Control of capacity in each of the exhibition areas.
- ✓ Capacities will be compliant with current regulations.

HAND SANITISER DISPENSERS AND USE OF FACE MASKS

RESTAURANT AND COMMUNAL ZONES DISINFECTED

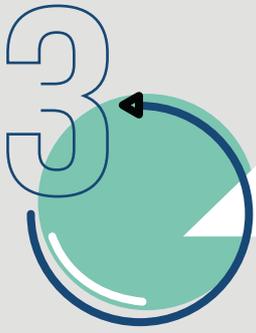

CONTINUOUS DISINFECTION

REINFORCED MEDICAL SERVICE

HYGIENE MEASURES

- ✓ The necessary hygiene and disinfection measures will be put in place to ensure the safety of installations, including disinfection of large spaces.
- ✓ Maintenance cleaning and readiness cleaning of areas before, during and after events, especially contact surfaces and areas of frequent use.
- ✓ Installations will be constantly ventilated to allow air to be correctly renewed.

Control of permitted capacity and distancing measures in each room where activities such as conferences, talks, sessions, meetings or other types of activities take place.

3. TECHNICAL SESSIONS

CONFERENCES

DIGITAL FERIA ZARAGOZA

SESSIONS

- ✓ Likewise, facilities will be disinfected before and after each activity to safeguard the health of all participants.
